Molin Activates Automated Surface Treatment Process

In 2015 Molin Concrete Products began operation at their state-of-the-art automated wall panel plant in Ramsey, MN. Adding the Ramsey Facility, Molin can better serve its customers as a full service precast company, now offering insulated and solid wall panels and architectural cladding. The Ramsey Facility is an efficient, quiet, safe and streamlined production facility using an automated carousel production process that achieved A1/C1A certification from the Precast/Prestressed Concrete Institute (PCI) this past year.

With an automated production process Molin is able to exceed the industry quality standards, and provide a

EMPLOYEE FEATURE:

Molin Concrete Announces Recent Staff Additions & Transfer

Tom Molin
President

I am pleased to announce recent hiring and transfer activity at Molin Concrete Products:

Roxann Ostendorf joined Molin Concrete Products in March 2016 in a position of Residential Sales Representative. **Kassie Florentine** transferred to a position of Assistant Sales Coordinator at Molin in November 2016. She joined Molin Concrete Products in 2015. **Nancy Krogh** joined Molin Concrete Products in November 2016 in a position of Receptionist.

Molin Hires Roxann Ostendorf

Roxann returned to Molin Concrete Products in March 2016 after spending 7-years “testing retirement”. She was also employed at Molin from 2000 to 2009. Roxann and her husband live in Webb Lake, WI and have three adult daughters and four grandchildren. When the grandchildren aren’t keeping her busy during her time away from work,

Roxann and her husband enjoy life by taking rides on the pontoon, the ATV, or snowmobiling on the many trail systems near their home.

Molin Transfers Kassie Florentine

Kassie has been employed at Molin Concrete Products since July 2015 and transferred to the position of Assistant Sales Coordinator in November 2016. In May 2015 Kassie graduated with an Administrative Office Assistant Diploma from Anoka Ramsey Technical College. In August 2015 Kassie married Nick and they

have two 1-year old puppies that are very energetic. Kassie enjoys snowboarding, crafting, gaming, and reading in her spare time.

Molin Hires Nancy Krogh

Nancy started at Molin Concrete Products as Receptionist in November 2016. Prior to joining the Molin team, she worked for 14-years as a part-time nanny. Nancy held various office positions within Deluxe Corporation for 18 years (1981-1999) along with providing childcare at Aveda Corporation. Nancy and her husband,

Mark have lived in Circle Pines, MN for 30 years. They were blessed with two sons, Matt and Lance who were married (7) weeks apart in the summer of 2015. Nancy enjoys Country and Christian music, camping, photography, biking, playing cards/games and spending time with family and friends. She and Mark attend Eagle Brook Church and Our Savior’s Lutheran Church.

more consistent product on a fast timeline. Most recently, Molin completed its final phase of implementation at the Facility with an automated surface treatment process using a CAD interface to apply the specified architectural texture to the panel surface. The available textures include a full range of exposures from a light etched finish to a heavy sandblasted or aggregate texture.

Molin’s automated finish process provides consistency unparalleled in the precast industry. Professionals from local design firms and contracting companies who have toured the facility leave with a renewed confidence and interest in using precast concrete wall panels.

Feel free to contact your Molin Sales Representative to arrange a tour of the Automated Wall Panel Facility or the Lino Lakes Structural Precast Facility. «

FUTURE PROJECT:

Molin Recently Awarded Contract for Vikings Training Facility & Headquarters

Molin Concrete Products was recently awarded the contract for design, production, delivery and installation of the architectural precast concrete wall panels for the Minnesota Vikings new Training Facility and Team Headquarters in Eagan, MN. The campus which is just south of Interstate 494 and east of Dodd Road, will include outdoor and indoor practice fields, a 6,000-seat stadium, team meeting rooms and auditorium, a broadcast studio and media center, and administrative offices. «

Molin Representatives Attend & Exhibit at Recent AIA Conventions

Marketing and Business Development staff from Molin Concrete Products attended the 2016 AIA Conventions & Products Expos which were in Sioux Falls, SD, Des Moines, IA, Bismarck, ND and Minneapolis, MN. As part of all of these product expos, Molin offered the opportunity to view a short video showing the state-of-the-art automated wall panel production process at the Ramsey production facility. The AIA-Minnesota convention in Minneapolis also offered Molin an opportunity to take advantage of a double-wide display area which included highlighting the Molin Lino Lakes - Structural Precast Facility as well as the Molin - Architectural Precast Wall Panel Facility. «

Molin Representatives Offer Plant Tours and Lunch & Learn Presentations

Molin Business Development & Marketing Representatives offer multiple education opportunities to architects, engineers and contractors. Lunch & Learn presentations may be provided in the client offices or combined with a PCI plant tour. Many presentations and tours are registered with AIA/CES and Registered Continuing Education Program (RCEP) of the National Council of Examiners for Engineers & Surveyors (NCEES) for continuing professional education credits. If you or your staff would be interested in learning more about the presentations offered by Molin please send the "Fax Back Information Form" which is part of this newsletter to Molin with requests for additional information and/or Lunch & Learn presentation requests. «

Your wish is our command with our fax back form!

If you're looking for product information, want to schedule a plant tour or box lunch presentation, need an address/company change, need to add or delete someone as a newsletter recipient, change your email address, or wish to be contacted by a Molin rep, please fill out the appropriate information on this page and fax it to us. Thanks.

Fax Back Information Form » Fax this form to 651.786.0229

Please send me information on:

- Hollow Core Plank
- Foundation Wall Panels
- Structural Wall Panels
- Prestressed Beams
- Precast Columns
- Architectural Wall Panels

Please have a representative call me:

- I have immediate needs.
- Please call in _____ months.
- I am interested in a lunch box seminar.
- I am interested in a plant tour.

If you know of someone who should be added as a newsletter recipient, or taken off the list, please let us know.
